

Best Dog Treats 2024 | DogFoodAdvisor

What are the Best Dog Treats on the Market?

All dogs deserve (and love) treats.

They're a wonderful way to reward good behavior and extremely helpful when it comes to training.

This is why we want to share **The Dog Food Advisor's favorite dog treats**. Each month we'll be adding a selection we think your dog will love.

Are Dog Treats Healthy?

Now, we don't look at dog treats in the same way [we look at dog food](#). There are several reasons why.

For one, **dog treats aren't regulated in the same way dog food is**, so we can't analyze them against official guidelines.

Also, **treats are not dog food** — they're *additional to* and not *part of* a complete diet.

And finally, **treats are treats!** Sometimes you treat kids with carrots, sometimes with candy. It's the same with dogs. Some treats can be a little naughty... in small doses.

That said, we've done our best to select treats that don't include any nasties.

We sincerely hope your pooch will be rolling over (and sitting and begging and shaking hands) with joy when they taste them.

The Best Dog Treats

December 2023

West Paw – Air-Dried Bison Dog Treats

Natural treats made with 100% humanely-raised bison lung, air-dried for extra flavor with no added preservatives or flavors.

Stewart – Healthy Gut Dog Treats With Probiotics

Stewart Healthy Gut dog treats are made with probiotics to support digestion and freeze-dried to retain nutrients. This chicken and vegetable recipe is also high in protein.

Barkworthies – Belly Bark Green Tripe

Single ingredient chews which are a healthy alternative to rawhide, packed with protein and flavor, highly digestible, and perfect for dogs who love to chew.

Plato Pet Treats – Wild Caught Baltic Sprat

100% natural whole fish, sustainably caught and made with zero additives. These treats are also full of omega-3 which helps to promote a healthy skin and coat.

[Merrick – Real duck sausage cuts](#)

Formulated to give your dog a protein boost with 100% natural meat, these single-ingredient treats are made from USA-sourced, real duck. They contain zero grain, gluten, poultry by-products or fillers.

The Best Dog Treats

November 2023

[Open Farm – Dehydrated cod skins](#)

To create these crispy, nutritious skins, Alaskan cod is lightly cooked and dehydrated at low temperatures to retain its flavor. They're low in carbs, high in protein, and made without corn, wheat, or soy.

CLIF PET – Plant based jerky

If your dog suffers from a sensitive stomach, this plant based jerky could be a good option. It's easy to digest and has limited, nutritious ingredients such as blueberries and sweet potato.

[Acana – Freeze-dried dog treats](#)

The three main ingredients in this recipe are beef, liver, and pumpkin, so these treats are high in protein and fiber. Plus, the freeze-drying process helps to lock in nutrients and taste.

[Fruitables – Skinny minis](#)

These treats have a unique grilled bison flavor to keep your dog interested and are bite-sized which makes them ideal for training time.

[Stewart – Wild salmon freeze-dried dog treats](#)

Wild salmon is the number one ingredient of these treats, which are freeze-dried to retain nutrients and flavor. They're also rich in protein and omega-3 fatty acids.

The Best Dog Treats

October 2023

[Jinx – Chicken and sweet potato tenders](#)

These low calorie, natural treats from Jinx are ideal for fussy eaters. The number one ingredient, slow-smoked chicken, is high in protein, while the sweet potato is a great source of fiber.

Pawstruck – Pork skin twists

Made from 100% pork skins, with minimal processing and artificial ingredients, Pawstruck pork chews are a safer alternative to rawhide.

Good Lovin’ – Pumpkin-flavored teething rings

Your puppy will be lovin’ these innovative teething rings, which double as a treat and dental chew. They contain zero rawhide or grain, are highly digestible, and can help to satisfy your pup’s need to chew.

Pure Bites – Freeze-dried beef liver

Pure Bites contain a single ingredient — 100% Pure USA Sourced & Made Beef Liver. They're high in protein and are freeze-dried raw to lock in their meaty flavor, texture, and nutrients.

[**The Honest Kitchen – Bone broth bites**](#)

Slow baked with real beef bone broth, these treats are high in protein and full of flavor. There's nothing artificial in the recipe — just pumpkin and parsley for added vitamins, and sweet potatoes for extra fiber.
